

DUSEL

INSTRUCTION

SHOWER ENCLOSURE - DL197

Wij danken u voor uw keuze voor één van onze doucheopstellingen en we wensen u veel plezier met uw aankoop. Lees de instructies aandachtig door voordat u begint met de montage. Niet juist naleven van de instructies kan de garantie doen vervallen.

BELANGRIJKE MEDEDELING

Controleer de inhoud van de verpakking op eventuele transportschade en kijk of alle onderdelen aanwezig zijn.

Zet het glas tijdens het uitpakken nooit direct op de grond, gebruik altijd karton of een vergelijkbaar materiaal als ondergrond. Wees voorzichtig bij het verplaatsten, let hierbij vooral op de hoeken en randen van het glas.

CARE INSTRUCTIONS

Showers enclosures should be cleaned after every use. To prevent limescale from building up, use a squeegee, a soft cloth or chamois leather-but no cleaning-to wipe off any water droplets left after showering. Residue left by bodycare products (liquid soap, shampoo, shower gel) can also cause substances to accumulate. Use water to rinse away residues after use. All sliding door track fittings should also be cleaned this way-to ensure that they continue run smoothly.

- **Don't allow limescale to build up-especially in hard water areas**
- **If you do get a stubborn limescale build up, a mixture of 50:50 vinegar and water will help you to clean it away-but make sure all vinegar is rinsed off completely**
- **Never use strong detergents or cleaning agents**
- **Cleaning materials should wherever possible be rated between PH4 and PH8**
- **In no circumstances should you use any abrasive substance**
